SUMMARY

Full Stack JS Developer (MEAN & MERN) with strong experience in building web and mobile applications. Enthusiastic about developing technical solutions, I am motivated by complex challenges and continuous improvement. Currently seeking new opportunities to leverage my technical skills and team collaboration capabilities.

EXPERIENCES

Full Stack JS Developer - BHD Media Prod

Mahdia | 2022 – 2024

Responsibilities:

- Developed interactive web applications for sectors such as travel, photography, and e-commerce with modern, intuitive user interfaces ensuring excellent user experience.
- Designed and deployed backend APIs using Node.js and Express.js for efficient server-client communication, ensuring security and responsiveness.
- Integrated Redux for advanced state management, using Redux Thunk for handling asynchronous operations.
- Used express-crypto for encrypting sensitive data, ensuring protection from unauthorized access.
- Managed file uploads with Multer, implementing secure drag-and-drop file handling.
- Built dynamic, responsive front-end interfaces with React and Next.js, utilizing Tailwind and Bootstrap.
- Developed API services and client-server communication using Fetch API.
- Administered MongoDB databases, optimized schema design and query performance for rapid data retrieval.

Web Developer - Skillware

Sousse | January 2021 - August 2022

Responsibilities:

- Developed sports betting websites with responsive and optimized interfaces for both web and mobile platforms.
- Improved application performance through optimal code structuring and dependency management.
- Implemented lazy loading and guards to optimize loading times and manage access control.
- Utilized JWT for secure authentication and HTTP interceptors for request management.
- Built real-time forms with validation and developed search filters for quick and accurate site searches.
- Integrated real-time chat using Socket.io and embedded Iframes for dynamic content.

Web Developer - TerraForm

Sousse | December 2019 - December 2020

Responsibilities:

- Developed responsive websites for the tourism sector with attractive, functional interfaces.
- Administered Firebase databases and integrated search and filtering services.

Education

Bootcamp MERN - GoMyCode

2024

Engineer's Degree in Software Engineer - International Multidisciplinary School (EPI)
